

Thank you for taking the time to speak with me this afternoon. As we discussed we are a small (50+ person) manufacturing company located in West Allis, WI seeking help in our Sales Department. We are a privately held company whose CEO is a veteran and we have employed a number of veterans over the years. We are seeking a customer service representative to work with our sales team. This position is a career opportunity which may then lead to an opportunity as a member to join our sales team. As the position is an office position, I believe that a disabled veteran would also be suitable to the position.
