

ASSOCIATED TRAINING SERVICES

AMERICA'S LARGEST HEAVY EQUIPMENT & TRUCK DRIVER TRAINING SCHOOLS

DIESEL TRUCK DRIVER TRAINING SCHOOL

Associated Training Services and Diesel Driving School would like to help the military veterans of our great country. As a veteran's approved training institution which has been in operation for the last fifty years, we have helped thousands of veterans secure gainful employment as truck drivers, heavy equipment operators, mobile crane operators, riggers, and signalpersons.

As you may be aware, the Post 911 GI Bill educational benefits can now be used by veterans to attend private vocational schools such as ours. These benefits can be used to cover all or a large portion of the veteran's tuition. This is a great opportunity for our veterans to obtain skills, knowledge and credentials in occupations which can provide long-term and rewarding employment for these individuals.

In honor of all veterans returning from Iraq or Afghanistan, our schools are offering scholarships in the amount of \$500 to \$1,500 to eligible veterans. These scholarships can be used to pay a portion of the tuition for any of the programs offered by our schools.

In addition to the above financial benefits, our schools offer the following other services:

CAREER COUNSELING
GRADUATE EMPLOYMENT ASSISTANCE
HOUSING FACILITIES
CERTIFICATION / LICENSING

The owners and the staff of our schools are proud to provide training services and employment assistance to our nation's brave and courageous soldiers. We value our freedom and we know it would not be possible without the sacrifices made by the personnel of our armed forces. We would like to thank them for their service.

Respectfully,
Jerry Klabacka
President
