

Veterans/Dependents:

Moraine Park is helping to combat the skilled worker shortage in the health care field by offering an accelerated Certified Nursing Assistant (CNA) three-four week long summer boot camp at Moraine Park Technical College campuses - Fond du Lac, West Bend and Beaver Dam. The College is using the U.S. Department of Labor TAACCCT 4 Grant to provide specific training necessary to create job opportunities with collaborating area healthcare partners and give students the opportunity to take the first step on the pathway toward a career in healthcare.

In Fall, 2015 Moraine Park will begin offering an accelerated Medical Assistant cohort model program at the West Bend Campus. Medical Assistant information sessions will soon be announced.

For more information see the attachment in regard to a upcoming information session and go to www.morainepark.edu/4health.
