

# Historic Preservation Program

Lamar Community College and HistoriCorps® announce the first-of-its-kind, field-based building preservation school!

The program combines hands-on, experiential learning

in a variety of spectacular settings

with online education,

to prepare **YOU** for a career in the fast-growing fields of building rehabilitation and construction!

**Put your hands on history, on-site and online!  
Earn college credit and gain real-world construction and building experience.**

**Advance your career by saving historic buildings**

## Students will learn about:

- Historic Preservation Theory & Practice
- History of American Architecture
- Historic Preservation Dynamics
- Research and Documentation
- Construction Materials, Systems, and Building Diagnostics

## Students will gain skills in:

- Floor, wall & roof framing & finish
- Carpentry: rough & finish
- Log construction, restoration & replacement
- Masonry: stone, brick, adobe
- Window and door restoration
- Construction business practices

Give yourself a career boost in the rapidly growing building industry

**Apply now for Spring 2014**
