

Shred-it

Do you enjoy interacting with customers but prefer the freedom of the road?

Do you want to work for a reputable, environmentally conscious company?

If you answered yes to these questions than a role as a CSR at Shred-it is the place for you!

SUMMARY/RESPONSIBILITIES

As a Route Service Driver (Customer Service Representative) for our Shred-it Document Destruction business, you're never tied to a desk. Instead, you're out every day in a shredding truck that's equipped with proprietary technology. You're visiting customers, talking to people, and building relationships. It's a role that requires accountability – and rewards it with the satisfaction of knowing you are part of the big picture.

Every CSR represents Shred-it at our client's place of business. CSR's are literally the face of the Company. From arrival through to departure, after securely destroying all customer confidential information, the CSR's performance must be superior and undertaken with the highest regard for confidentiality, security and courtesy. Please go to our website for more information at Shredit.com
