In 1874, original Washington County pioneer, Maxon Hirsh, held a festive dinner at West Bend's Washington House. Early area pioneers were the special guests at this event, and everyone heartily enjoyed themselves.

The success of this special evening encouraged attendees to organize the "Old Settler's Club." That same year, a preliminary meeting was held, a constitution drafted, and officers elected. The first meeting and celebration of the "Old Settler's Club" was held at the Washington House on February 22, 1875 – President George Washington's birthday.

The club continued throughout the years, changing the name to the "Washington County Old Settler's Club and Historical Society" in 1941, to the "Washington County Historical Society" in 1954, and finally to The History Center of Washington County in 2016.

As the organization evolved over time, many community members contributed stories, artifacts, photos, and papers documenting the area's rich history. Today, The History Center of Washington County is a professional organization that operates three distinct historic museums and the Washington County Research Center.

The Old Courthouse Museum is an excellent example of Romanesque Revival architecture and houses the natural history of Washington County. The Old Sheriff's Residence and Jail is a barrier free site and one of the few remaining sheriff's residence and jail buildings in the United States. The St. Agnes Historic Site and School Complex is an excellent example of 1850's architecture and the first public school in the area.

The History Center of Washington County is committed to serving the community, offering programs, educational resources, and research assistance. Membership in the Society offers many benefits. There are various membership levels available for every budget.

Knowledge of the past assures a successful future. The History Center of Washington County invites you to come and "Make History with Us."
