These data are provisional, subject to correction, and may not correspond with WI DPH reporting criteria.																				
This is not a complete listing of reportable diseases. If a disease is not listed, it means there have been no local cases during the time period covered by this report.																				
* Population is estimated as of January 1, 2015 by WI Dept of Administration																				
** Rates are given per 100,000 residents																				
*** AIDS/HIV cases are reported to Waukesha County and published annually by Wisconsin DHS
